FULL-STACK DEVELOPMENT | EXPERT KNOWLEDGE IN REACT.JS.

As a Full Stack Developer, I excel in both front-end and back-end technologies, emphasizing user-centric experiences with React.js. My coding philosophy prioritizes efficiency and code reusability, ensuring scalable solutions and streamlined development processes. Rooted in strong ethics, my collaborative approach fosters effective teamwork, creating a dynamic environment for digital excellence.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer (MERN).

GoldenTechSpace,Georgia | September 2023–Present

- ❖ Craft world-class, user-centric web applications on platforms like Bootstrap, Shopify,word-press, and React, catering to diverse client needs.
- ❖ Developed a dynamic website driving a 25% sales surge through high traffic, engaging visuals, and intuitive user experience.
- ❖ Obsessed with building pixel-perfect applications that exceed client expectations, resulting in a 44% rise in satisfied customers.
